INTRODUCTION

BACKGROUND

Land use planning and classifying of Crown land in Agro-Manitoba is the responsibility of the Crown Land Classification Committee. This interdepartmental committee has representatives from Manitoba Agriculture, Municipal Affairs, Natural Resources and Northern Affairs. The Crown Land Classification Committee reports to and receives its direction from the Provincial Land Use Committee of Cabinet.

The management and administration of Crown land is shared by Manitoba Natural Resources, Agriculture and Northern Affairs. Agricultural Crown Lands Branch issues agricultural leases and permits for those Crown lands which are designated by the Crown Land Classification Committee for agricultural use. The administrative responsibility for other Crown land uses is undertaken by the Lands Branch of Manitoba Natural Resources.

These Operational Crown land plans are part of an overall Provincial Crown land planning program, whereby operational plans implement Provincial Crown land plans. Provincial plans which are approved by the Provincial Land Use Committee state provincial land use goals, intent, policy and describe the land use categories for the Crown lands in the particular plan area. The Operational plans are approved by the Crown Land Classification Committee with the Provincial Land Use Committee the appeal authority.

Pending the preparation of a Provincial Plan, Operational plans provide guidance in respect of allocation and use of Crown lands.

As of this printing, Provincial Crown Land Plans have been prepared for the following rural municipalities, local government districts and unorganized areas in Agro-Manitoba.

1. Western Interlake Planning District	- R.M. of St. Laurent - R.M. of Coldwell - R.M. of Siglunes
2. Cypress Planning District	- R.M. of North Cypress - R.M. of South Cypress
3. Brokenhead River Planning District	- R.M. of Brokenhead

* These Provincial Crown Land Plans are in draft form under review.

INTRODUCTION

THE REPORT

The material contained, in this report, is part of the Crown Land Classification Committee's planning process which reviews, refines and updates on an ongoing basis a set of Crown land classification maps for Agro-Manitoba.

This report is prepared by the CROWN LAND CLASSIFICATION COMMITTEE as a direct and ongoing result of the field activities of the various BLOCK PLANNING COMMITTEES.

OPERATIONAL CLASSIFICATION SYSTEM

The Crown lands in this report are classified utilizing an open-ended comprehensive coding system which dictates on a quarter section basis not only the land use, but also the intensity of use, the amount of development (that is, the amount of clearing which can take place), and the length of time the Crown land can be committed via various legal instruments (such as leases, permits, contracts, etc.). These land use classifications are supplemented by land management guidelines which address site specific and physical factors as required; with the entire process within a stated planning framework and consistent with approved procedures.

The Operational Classification System is open-ended and provides for additional codes to be added upon approval by the Crown Land Classification Committee.

OPERATIONAL PLAN APPROVAL

Operational Crown Land Plans are prepared, amended and approved by the Crown Land Classification Committee. Appeals to operational plans are directed to the Crown Land Classification Committee with the Provincial Land Use Committee of Cabinet the final authority.

LAND USE ADMINISTRATION

The Operational Plans as presented dictate Crown land use. No other use is allowed; that is all other potential uses are considered conditional and must be reviewed, cleared and approved prior to their allocation.

The use of Crown land is administered through instruments such as leases, permits, contracts, agreements, etc. which are issued by the Crown to individuals, corporations, etc. or declared by the Crown through Orders-in-Council.

INTRODUCTION

Most of the Crown land outside of Order-in-Council areas (i.e., Crown land not included in Community Pastures, Provincial Parks, Provincial Forests, Ecological Reserves and Wildlife Management Areas, etc.) are administered under the authority of the Crown Lands Act. This Act is administered by Manitoba Natural Resources, Lands with certain specified sections the responsibility of Manitoba Agriculture, Agricultural Crown Lands and in cooperation with Manitoba Northern Affairs for Crown lands in the unorganized areas.

Proposed land uses and commitments must be in conformity with these Interdepartmental Operational Crown Land Plans.

OPERATIONAL PLAN UPDATE

These OPERATIONAL CROWN LAND PLANS are reviewed and revised as required once yearly. Upon receipt of Crown Land Classification Committee approval, these plans are used to administer and guide Crown land use for that year.

These plans have been updated on a yearly basis since their inception in 1976, however, as of the January, 1982 revision, all maps which were revised or re-drafted are labelled indicating the date of the last revision. All maps not showing a revision date had their last review completed with the July, 1981 special update.

Subject to the 10 year flood	F3
Subject to the 5 year flood	F4

SPECIAL BLOCK CODES (To be used only with approval of the C.L.C.C.)

- Agriculture leasable, 60 acres may be cleared per quarter providing 40 acres of native woody vegetation remain. Location of clearing by joint decision.

OR

- Up to 120 acres may be cleared per quarter, on 2 quarters providing 40 acres of native woody vegetation remain per quarter. Maximum clearing on remaining quarter in the block is 60 acres per quarter provided 40 acres of native woody vegetation remain per quarter and not to exceed the total intent of the 60 acres code per quarter. Once allowable clearing has been reached, the remaining undeveloped quarters shall be designated code 7a. Location of clearing by joint decision.

Z1

- Agriculture leasable, 80 acres may be cleared provided that 40 acres of native woody vegetation remain per quarter.

OR

- Up to 120 acres may be cleared per quarter section on 2 quarters providing 40 acres of native woody vegetation remain per quarter. Maximum clearing in remaining quarters in block is 80 acres per quarter providing 40 acres of native woody vegetation remain per quarter and not to exceed the total intent of the 80 acre code per quarter. Once allowable clearing has been reached, the remaining undeveloped quarters shall be designated code 7a.

Manitoba

Crown Land Classification Committee
Interdepartmental Operational Crown Land Plans

DEFINITIONS

AGRICULTURAL USE - identifies Crown lands for present use or future use as pasture, both improved and native, and as cropland, (including paddy production). Normal activities include grazing, haying and cultivation. For purposes of this classification these land uses are termed extensive agricultural use, for intensive uses, see Intensive Uses, Agriculture).

COMMUNITY PASTURE - Agricultural grazing land designated for community use for grazing purposes by Order-in-Council and operated by the Federal P.F.R.A. Program.

MANAGER APPROVAL REQUIRED - requires that before allocation and/or any advertising by Manitoba Agriculture, Agricultural Crown Lands, the appropriate manager (Forester, Land Manager, or Park Planner, Geologist, Biologist, etc.) must be contacted specifically regarding these lands. No action can be taken without his approval.

DEVELOPMENT - the carrying out of construction, erection or placing of any building or excavation or other operation on, over or under land or the making of any change in the use or intensity of use of any land or building or premises. This includes clearing, drainage, breaking, seeding, spraying, etc., (except fencing and those rights prescribed under a given lease - wells, dugouts, corrals, shelter, etc.).

DEVELOPMENT RESERVE - Crown land areas with potential for more intensive use. Limited access, low demand, need for extensive capital infrastructure (drainage), new technology or low service infrastructure require that use be restricted at this time.

ECOLOGICAL RESERVE - Crown land designated under An Act Respecting Crown Lands or the Ecological Reserves Act.

FISHERIES - means Crown land identified as being significant or critical fish habitat, i.e. stocked ponds, spawning grounds and nursery, rearing, food supply and migration areas on which fish depend, directly or indirectly, in order to carry out their life process. The area to be identified and coded fisheries includes not only that portion of the water body critical as fish habitat but also the immediate surrounding land (buffer) necessary to protect the habitat. The size of the area including buffer area to be coded fisheries shall depend on the physical nature of the site and the adjacent or allowable uses of the shoreland.

DEFINITIONS

FLOOD - a temporary rise in flows or water levels of a water course or waterbody that results in inundation of areas not ordinarily covered by water.

a) 100 Year Flood - a flood which can be expected to occur, on the average, once in 100 years, or a flood which has a one percent chance of being equalled or exceeded in any year.

b) 10 Year Flood - a flood which can be expected to occur, on the average, once in 10 years, or a flood which has a 10 percent chance of being exceeded in any year.

c) 5 Year Flood - a flood which can be expected to occur, on the average, once in 5 years, or a flood which has a 20 percent chance of being equalled or exceeded in any year.

FOREST MANAGEMENT - areas of Crown forest land administered under sustained yield management and includes uncultivated land on which trees or shrubs are growing or standing.

JOINT DECISION _ decision of the Bloc Planning Committee is required.

INTENSIVE USES -

a) Agriculture - Crown land presently being used or identified for future use as; beekeeping, dugouts, feedlots, herb farms, piggeries, veterinarian clinics, haying cabins, gardens, farm residences and associated buildings, outside of unincorporated and incorporated cities, towns and villages.

b) Forestry - Crown land presently being used or identified for future use as; tree nurseries, experimental plantations, wood piling areas, sawmill sites, education and research, forestry sample plots, etc., outside of unincorporated and incorporated cities, towns and villages.

c) Recreation - Crown land presently being used or identified for future use as; campgrounds, tourist lodges, camps, shooting lodges, hunting cabins, marinas, playgrounds, cottages, Golf and Country Clubs, motorcycle trails, public beaches, outside of unincorporated and incorporated cities, towns and villages. These lands generally have a high suitability for intensive development and use.

d) Mineral - Crown lands presently being used or identified for future use as; aggregate stock pile areas, processing sites, drilling sites and oil wells and associated sites, petroleum storage tanks, etc., outside of unincorporated and incorporated cities, towns and villages.

DEFINITIONS

e) Wildlife/Fisheries - Crown lands presently being used or identified for future use as; fish hatchery sites, fish stations, packing sheds, trapping cabins, mink ranching, education and research sites, etc., outside of unincorporated and incorporated cities, towns and villages.

f) Other - Crown lands presently being used or identified for future use as; garbage dumps, nuisance grounds, air strips, boat docks-houses-ramps-launches, water supplies, military reserves, penitentiaries, residential trailer parks, non-farm rural residential, town halls, community centers, athletic grounds, community clubs, churches, missions, graveyards, oil tank storage areas, refineries, business establishments, etc., outside of unincorporated and incorporated cities, towns and villages.

MINERAL EXTRACTION - Crown land presently being mined, to be mined in the near future or land with deposits which will eventually be mined.

MULTIPLE CODING - multiple coding is the technique used to assign more than one code to a parcel of Crown land. The codes which may be assigned need not be complementary.

See Explanations and Interpretation Section for implementation of multiple coding.

NATURAL LANDS - Crown land coded under this category include those areas identified as best kept from development. Generally, these areas are to remain as they occur in nature.

a) Erosion Prone/Fragile/Hazard Lands - Crown lands which are prone to instability, will erode through run-off or wind action including lands which have been identified as being important because they are fragile in nature and are land forms which require protection if they are to maintain their characteristics; e.g., slopes greater than 31%, sand dunes.

b) Bedrock - Crown lands which have extensive outcropping of bedrock, very shallow soils over bedrock, or a degree of stoniness which restricts use. Includes uneconomical surface gravel and sand deposits.

c) Marsh, Swamp, Bog, Fen - Poorly drained Crown land whose site characteristics preclude intensive use at the present time.

   i) Marsh - tract of soft, wetland usually low lying and partly or completely under water, has herbaceous vegetation rather than trees.

DEFINITIONS

ii) Swamp - tract of low lying wooded area which is intermittently saturated; dampness due to poor drainage, wood is not of commercial value.

iii) Bog - a peat-covered or peat-filled area, generally with a high water table - peat is not of commercial value at this time.

iv) Fen - a peat-covered or peat-filled area, with a high water table, which is usually at the surface - peat is not of commercial value at this time.

NON-CONFORMING USE - is an existing use or legal commitment which was in place prior to and is contrary to the approved land use classification code. The existing non-conforming use is accepted for the short term (e.g., a lifetime lease) but is inappropriate for the long term. The approved land use classification code will be enforced at the earliest possible opportunity with a minimum of negative social impact. Thus, the land use code will be enforced upon expiration of existing commitments as defined below:

i) Where the parcel is under lease, the non-conforming use can continue until all lease rights expire. Upon surrender of the lease or cancellation of the lease, the non-conforming use will no longer be allowed.

ii) Where the parcel is under permit, the non-conforming use can continue until the person holding the permit no longer wishes to renew the permit. Upon the lapsing of the permit by the permittee, the non-conforming use will no longer be allowed.

In-family transfers and farm unit transfers will be permitted subject to eligibility requirements as determined by Manitoba Agriculture policy and legislation.

All approved operational land use classification codes in place as of January of each year are considered to be the long term intended land use for determining whether an existing use of legal commitment is non-conforming.

OUTDOOR RECREATION - recreation and open space areas where the natural setting or resource is the principle component. These areas are generally less suitable for intensive development. Crown lands coded for outdoor recreation may allow, activities such as unorganized bathing, unorganized camping, trail use, hiking.

PROJECT AREA - an area of Crown land where an approved project is established or is presently under consideration.

DEFINITIONS

PROVINCIAL FOREST - Crown lands designated as such in the regulation under An Act Respecting the Administration and Conservation of Forests in the Province.

SIGNIFICANT SHORELAND - that area of Crown land which may include water, wet beach, dry beach and backshore which has been identified as being of public significance. It shall include such areas approved by the Provincial Land Use Committee as requiring protection as identified through the Crown land sale program and areas identified by the planning process.

i) Wet beach - the area of beach below the normal high water mark usually outward to the 1.5 meters depth contour at normal low water.

ii) Dry beach - the area of beach above the normal summer high water but normally subject to wash by high water or storm waves.
iii) Backshore - that area extending inland from the dry beach required to support or protect the resources, uses, activities or facilities.

See Explanations and Interpretation Section for application of this code.

SITE PLAN FILED - to use this code a site plan must be filed.

SPECIAL FOREST AREA - a Crown land area designated by Order-in-Council for the purpose of forest management, timber harvest, reforestation or research, and not presently designated as Provincial Forest.

TIMBER REMOVAL PRIORITY - this code indicates parcels with valuable (marketable) timber volumes which are to be harvested prior to implementation of the land use code. Timber removal must be in accordance with the long term allowable development. Code is to be applied to vacant Crown land coded for long term agricultural use. These lands shall not be advertised by Manitoba Agriculture, Agricultural Crown Lands prior to removal of the timber as per the development code. Once the timber has been removed the code 'X' will be removed from the parcel.

TIME -

a) Agricultural No Time Restriction - means there are no concerns respecting the administration of the parcel. Agricultural Crown Lands Branch will determine the land's ultimate disposition and tenure. Therefore, lands coded with 'No time restriction' may be leased for one year, 5 years, 20 years or lifetime, or could be permitted annually - for 5 years, etc. The administrative decision is the responsibility of the Manitoba Agriculture, Agricultural Crown Lands.

DEFINITIONS

b) Agricultural Yearly Use Only - means the Bloc Planning Committee has some concerns and is restricting the administration of the parcel by Manitoba Agriculture, Agricultural Crown Lands, such that the administrative tenure is limited to a one year basis. Thus, Manitoba Agriculture, Agricultural Crown Lands is limited to annual permits, renewable permits and one year leases. There will be no conversion of permits to leases greater than one year.

c) Specific Time Requirements - the Bloc Planning Committee may determine that a specific time period is required, e.g., parcel available for hay only for 3 years or until 1990 etc.; the Bloc Planning Committee shall file a site plan stating all requirements deemed appropriate.

UNIQUE/RARE SITES - Crown land and/or water areas associated with (1) rare and endangered fauna and flora currently identified by the Government of Canada and relevant to Manitoba and by the Government of Manitoba as having a rare or endangered status. Species identification will be in accordance with Federal and Provincial legislation, (2) historic and archaeological sites, (3) unique significant resource sites - e.g., seed cone area. As a result of the nature of these sites no other use or development is allowed.

URBAN USE - Crown lands which are presently being used as town halls, community centers, athletic grounds, community clubs, churches, missions, graveyards, oil tank storage areas, refineries, residences, business establishments, etc., or lands which will be used for urban purposes in the future located within the boundaries of incorporated or unincorporated cities, towns and villages.

UTILITY SITES - Crown lands which are presently being used or identified for future uses such as roads, hydro transmission lines, pipelines (oil, gas, water), telephone lines, railways.

WATER RETENTION SITES - Crown lands which have been identified as being important for water retention. The sites may be permanent or intermittent bodies of water. To be coded as water retention the water/area must be of importance, that is, of some identifiable use: i.e., ground water recharge area, water holding area, siltation area, etc.

WILDLIFE - Crown lands coded under this category shall be limited in general to those areas identified as best kept from development and long term commitment to secondary uses because of their importance to wildlife as habitat. Generally, these areas are to remain as they occur in nature, however, habitat improvement is not excluded. Wildlife includes non-game species such as birds, reptiles, etc., and areas of seasonal importance such as prime deer wintering areas.

DEFINITIONS

WILDLIFE MANAGEMENT AREA - a Crown land area designated as such in the regulations under An Act Respecting the Administration and Conservation of Wildlife in the Province.

WILD RICE - Crown land and water areas which are presently used or will be used in the future for purposes of wild rice management and harvesting. It does not include paddy production.

Manitoba

Crown Land Classification Committee
Interdepartmental Operational Crown Land Plans

EXPLANATIONS & INTERPRETATIONS

The following items are approved interpretations in the use and application of operational Crown land use classifications.

1. INTERPRETATION OF DEVELOPMENT

Example Situation

Land Use Code 4a: Hay and grazing, agricultural - no time restriction, providing 40 acres of native, woody vegetation remain, the amount of development allowed is 80 acres.

IF Quarter is described as follows	THEN Acres of bush which still can be improved	AND Acres of bush retained
1. 160 acres all native bush	80	80
2. 140 acres bush; 20 acres native meadows	80	60
3. 120 acres bush; 40 acres already cleared	40	80
4. 100 acres bush; 60 acres native meadow	60	40
5. 120 acres bush; 40 acres lake	80	40
6. 100 acres bush; 40 acres lake	60	40
7. 100 acres bush; 40 acres native meadow; 20 acres lake	60	40

EXPLANATIONS & INTERPRETATIONS

2. MULTIPLE CODING

Multiple coding is the technique used to assign more than one code to a parcel of Crown land. The codes which may be assigned need not be complementary or compatible.

The primary and secondary land uses are generally determined by the order in the code listing. Therefore the first code listed is considered the primary use followed by the secondary, tertiary, etc., land uses.

For purposes of multiple coding, simplification of the symbolization is required. For example:

Old Code	New Multiple Code
1. C1/A1	C/A

The numeral 1 has been dropped. However the meaning has not changed, i.e., wildlife priority/forestry secondary use: no agricultural use.

Old Code	New Multiple Code
2. C1/7a	C/7a

The numeral 1 has been dropped. The code interpretation being primary use wildlife (C) secondary use hay and grazing no development (7a). The use of the number 1 in this case was confusing and inappropriate.

Old Code	New Multiple Code
3. C2/B2	C/B2
C4/A4	C/A4

The first numeral is eliminated. The meaning being wildlife priority (C), outdoor recreation secondary use; hay only no development, yearly use only tertiary use. Similarily for C/A4.

4. Other examples are:

E1/8a E/8a
A1/C6 . . . . . A/C6
N1/4a N/4a

A1/7a A/7a
C1/B1/7a . . . C/B/7a
7a/J4 . . . . . 7a/J

Note wherever appropriate, the land use should be stated first i.e., codes A, B, C, D, E, while land characteristics are indicated after the land use i.e., codes J, K, M, for example.

Old Code	New Multiple Code
J1/C1	C/J

EXPLANATIONS & INTERPRETATIONS

3. SIGNIFICANT SHORELANDS

Significant shorelands shall be identified by the code "O" followed by the reason for its significance, e.g., fisheries, outdoor recreation, etc.

a) Where the shoreland occurs on a quarter section where there is no agricultural, forest harvesting, recreational development, etc., occurring or being considered, the area shall be coded for example:

O/B - for significant shorelands from the outdoor recreation perspective
O/C - for significant shorelands from the wildlife perspective
O/T - for significant shorelands from the fisheries perspective

b) Where the shoreland is presently under agricultural use, the quarter shall be coded: O/SP. A site plan will then be prepared detailing the exact area of shoreland to be protected, for what purpose and the allowable use on the remainder of the quarter.

EXPLANATIONS & INTERPRETATIONS

4. PROVINCIAL LAND USE CODES

Provincial Land Use Description	Provincial Land Use Code	Operational Land Use Codes	Operational Land Use Description
Community Pastures	CP	CP	Community Pastures
Provincial Parks	PP	PP	Provincial Park
Provincial Forests	PF	PF	Provincial Forests
Wildlife Management Areas	WW	WW	Wildlife Management Areas
Ecological Reserves	ER	ER	Ecological Reserves
Special Forest Areas	SF	SF	Special Forest Areas
Agricultural Dominant/Native Environment Lands Minor	A	1-4a, 2-4b, 2-4c, 1-4d	Hay & Grazing
		1-4g, 2-4h, 2-4i, 1-4j	Hay Only No development restriction
		1-4n, 2-4p, 2-4q, 1-4r	Grazing, Hay, Cultivation 120-80A development
		1-4u, 2-4v, 2-4w, 1-4x	Cultivation Only
		Z2	Special Block Code Z2
Agriculture/Native Environment Lands Minor Co-major	AN	5-8a, 5-8b, 5-8c, 5-8d	Hay & Grazing
		5-8g, 5-8h, 5-8i, 5-8j	Hay only
		5-8n, 5-8p, 5-8q, 5-8r	Grazing, Hay Cultivation 60-0A dev., go back field
		5-8u, 5-8v, 5-8w, 5-8x	Cultivation Only
		Z1	Special Code Z1
Forestry	F	A1	Forest Management Area - no agricultural use
Forestry Dominant/ Agriculture Minor	FA	A2-A4, A6-A8	Forest Management Area - no development, hay only
Outdoor Recreation	R	B1	Outdoor Recreation - no agricultural use
Outdoor Recreation Dominant/ Agriculture Minor	RA	B2-B9	Outdoor Recreation, no development hay, hay or grazing, grazing, cultivation
Wildlife	W	C1	Wildlife - no agricultural use
Wildlife Dominant/ Agriculture Minor	WA	C2-C9	Wildlife - no development, hay, hay or grazing, grazing, cultivation
Mineral Extraction	M	D1	Mineral Extraction - no agricultural use
Mineral Extraction Dominant/ Agriculture Minor	MA	D2-D9	Mineral Extraction - no development hay, hay or grazing, grazing, cultivation
Water Retention	B	E1	Water Retention - no agricultural use
Water Retention Dominant/ Agriculture Minor	BA	E2-9	Water Retention, hay, hay or grazing, grazing, cultivation

EXPLANATIONS & INTERPRETATIONS

Provincial Land Use Description	Provincial Land Use Code	Operational Land Use Codes	Operational Land Use Description
Fisheries	C	T1	Fisheries - no agricultural use
Fisheries Dominant/ Agriculture Minor	CA	T2-T9	Fisheries, no development, hay, hay or grazing, grazing cultivation
Significant Shorelands	G	O	Significant Shorelands
Wildrice	W	Q	Wildrice
Unique - Rare Sites	Q	G1	Unique - Rare Site - no agricultural use
Natural Lands	N	J1, K1, N1	Erosion Prone/Fragile/Hazard lands, Bedrock, Marsh-Swamp-Bog-Fen; no agricultural use.
Natural Lands Dominant/ Agriculture Minor	NA	J2-9, K2-9, N2-9	Erosion Prone/Fragile/Hazard lands, Bedrock, Marsh-Swamp-Bog-Fen; no development, hay, hay or grazing, grazing, cultivation
Development Reserve	D	W1	Development Reserve - no agricultural use
Development Reserve/ Agriculture Minor	DA	W2-W9	Development Reserve - no development, hay, hay or grazing, grazing, cultivation
Urban Use	U	UU	Urban Use
Project Area	PJ	PJ	Project Area
Utility Sites	UT	UT	Utility Sites
Intensive Use			Intensive Use
- Agriculture	AM	AM	- Agriculture
- Forestry	FM	FM1	- Forestry - No Agricultural use
- Recreation	RM	RM1	- Recreation - No Agricultural use
- Mineral	MM	MM1	- Mineral - No Agricultural use
- Wildlife	WM	WM1	- Wildlife - No Agricultural use
- Other	XM	XM1	- Other - No Agricultural Use
Intensive Use Dominant/ Agriculture Minor			Intensive Use - No Agricultural development, hay, hay or grazing, grazing, cultivation
- Agriculture	AMA	AM2-9	- Agriculture
- Forestry	FMA	FM2-9	- Forestry
- Recreation	RMA	RM2-9	- Recreation
- Mineral	MMA	MM2-9	- Mineral
- Wildlife	WMA	WM2-9	- Wildlife
- Other	XMA	XM2-9	- Other

From Highway #20 West
Develop fields in such a manner that:

- approx. 300 ft. of bush will be left adjacent to streams
- continuous blocks of bush larger than 40 ac. will be left (may be on more than one quarter)
- light soil will not drift
- snow will not block roads
